The Old Doctors

Drew blood, modern doctors cleanse it; hence the increased demand for Alteratives. It is now well known that most diseases are due, not to over-abundance, but to impurity, of the Blood; and it is equally well attested that no blood medicine is so efficacious as Ayer's Sarsaparilla.

"One of my children had a large sore break out on the leg. We applied simple remedies, for a while, thinking *the sore would shortly heal. But it grew* worse. We sought medical advice, and were told that an alterative medicine was necessary. Ayer's Sarsaparilla being

Recommended

above all others, we used it with marvelous results. The sore healed and health and strength rapidly returned."—J. J. Armstrong, Weimar, Texas.

"I find Ayer's Sarsaparilla to be an admirable remedy for the cure of blood diseases. I prescribe it, and it does the work every time." E. L. Pater, M. D., Manhattan, Kansas

"We have sold Ayer's Sarsaparilla here for over thirty years, and always recommend it when asked to name the best blood-purifier." W. T. McLean, Druggist, Augusta, Ohio.

"Ayer's medicines come nigh to be the standard remedies in spite of all competition." T. W. Richmond, Bear Lake, Mich.

Ayer's Sarsaparilla,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Price $1, six bottles, $5. Worth $5 a bottle.

SEVENTH POINT

You should read THE CHICAGO DAILY NEWS because *you can afford it.* Price doesn't stand in the way. It's really the cheapest thing on earth. One cent means practically nothing—until you spend it. Then you may make it mean a great deal, according as you invest it. A thing so cheap that it costs little, and is worth much. THE DAILY NEWS is like stock bought from the whole world to your trade. To keep it in constant working order costs you but one cent a day. That's why it's cheap—because it renders a great service for an insignificant price.

Remember—by circulation is counted a day over a million a week—and it can be had by mail every month, four months, $1.00—*some cent a day.*

S. S. S. FOR THE BLOOD.

Our little girl when but three weeks old broke out with eczema. We tried the prescription from several good doctors, but without any special benefit. We tried S. S. S., and by the time one bottle was gone, her head began to heal, and by the time she had taken six bottles she was completely cured. Now she has a full and heavy head of hair, a robust healthy child. I feel it but my duty to make this statement. H. T. STONE, Rich Hill, Mo.

WHAT IS LIFE?

The Vital Question Discussed from Various Standpoints.

One day, when the feathered songsters in the woods were tired of singing, there was a long pause. All was quiet and nature itself seemed lost in meditation.

Suddenly the philosophical bullfinch piped, "What is life?" to which a little songster among the leaves replied, "Life is a song."

"No, a battle in the dark," said the ground mole, who just poked his head out of the ground in the vicinity of the tree among whose branches the little bird was hopping around.

"To my mind it is an unfolding," declared the rosebud, which was just ready to unfold its beautiful leaves, to the great delight of a magnificent butterfly, which did not hesitate to kiss the pretty flower, with these words: "Life is full of idle joy and pleasure."

"Say, rather, a short summer day," hummed a jealous one day fly buzzing past.

"I mean that life changes ever with work and pleasure," mentioned the bee, and it disappeared in the leaves of the rosebud to gather honey.

"I do not see that it is anything else than idle worry," complained the little ant, dragging a blade of straw, which in comparison to itself was unnaturally long.

"Yes, you are right," a little rabbit nodded from the hazel bush; "life, as sure as I live, is a hard nut to crack."

At this moment a soft rain murmured, "Life consists of tears, all tears."

"Life is an ever changing consciousness," said the thunder cloud floating toward the ocean. The ocean waves broke against the shore and sighed, "Life is a steady battle for freedom."

"No, you are mistaken, it is freedom," jubilantly said the eagle, sailing through the air with his powerful wings.

"Ah, it is poor earth," moaned the weed, working its way out of moor and stone.

The high cedars bowed to each other to the earth saying: "Life is striving ever upwards." And a ripple sounded through the tops of the trees until the pasture cried sorrowfully: "Life is rather given up to a higher power!"

Night had broken in and the solemn domo-prelate advised: "Let us rest, my friends. As there was no satisfactory answer given we will resume our debate to-morrow."

"For all I care you may do that," breathed the night. "But life is only a dream."

The still night ruled over the city and country and soon morning would draw near. The student, who was sitting in his out-of-the-way garret, lost in meditation, blew out his little lamp and murmured: "Life is only a school."

Footsteps were heard on the deserted streets. A tired citizen was going home to rest, after spending the night in going from pleasure to pleasure, in spite of which he complained: "Life is an unsatisfied longing and steady disappointment."

"It is a riddle," stammered the new born morning wind.

Suddenly a glimmering light rose upon the horizon. Higher and higher climbed the magic light over the top of the woods. The red morning light greeted the earth and like a mighty chord it sounded through the universe: "Life is only a beginning.—From the German."

Made Rich by Molasses Cakes.

Maria Bivins, a well known colored woman residing near this town, is dead. She was 50 years old, and for more than thirty years she has been engaged in making and selling molasses cakes, from which she accumulated a comfortable little fortune. Both she and her husband were born in slavery, as were several of their children. She had accumulated enough money before the war to purchase the liberty of herself and husband, and during the war she made enough money out of the Federal soldiers quartered here to purchase her children. After the war she bought a farm near this town, on which she employed her husband, paying him seventy-five cents a day during the spring and summer months, and fifty cents during the winter. She used two barrels of flour every month in the manufacture of cakes, always making 3,600 cakes out of each barrel. During the long period she was engaged in this business, it was estimated she had made nearly 4,000,000 of cakes. She was an honest, industrious woman, and enjoyed the respect of all who knew her.—Onancock (Va.) Special.

Sea Anchors.

Experiments have lately been tried at Dover with a so called *sea anchor*, invented by Capt. Waters. This apparatus consists of a canvas bag about four feet in diameter and five feet deep, with either a strong hoop to hold it open or a square bolted frame to answer the same purpose. The bag is attached to a beam, or float, in such a manner that it lies just below the surface of the water, and a stout rope forms the connection between it and the bow of the vessel employing it. The object of this sea anchor is to bring a boat or ship's head to the sea when in danger of foundering from getting broadside toward waves. There is nothing very new in the idea, for such a contrivance has frequently been extemporized with advantage. The veteran aeronaut, Green, also constructed an anchor to hold a balloon near the surface of the sea, which was almost identical in form to this one. —New York Telegram.

Few Divorces in Ireland.

Whatever may be said for or against the Irish people, there is certainly one respect in which they may challenge the admiration of the world, namely, in matrimonial fidelity. In the recently issued tables giving statistics on the subject of divorce our own country leads in having granted nearly half a million divorces during the twenty years past, but there have been eleven divorces throughout the length and breadth of Erin during that period. Protestant or Catholic, in happiness or abuses, the Irish continue the partnership until it is dissolved by death.—Boston Traveller.

A Sound Legal Opinion.

E. Bainbridge Munday, Esq., County Att'y, Clay Co., Texas, says: "Have used Electric Bitters with most happy results. My brother also was very low with Malarial Fever and Jaundice, but was cured by timely use of this medicine. Am satisfied Electric Bitters saved his life."

Mr. D. I. Wilcoxson, of Horse Cave, Ky., adds a like testimony, saying he 'positively believes he would have died, had it not been for Electric Bitters."

This great remedy will ward off, as well as cure all Malarial Diseases, and for all Kidney, Liver and Stomach Disorders stands unequalled. Price, 50c and $1 at Dr. A. J. Stoner's Drug Store. 6m

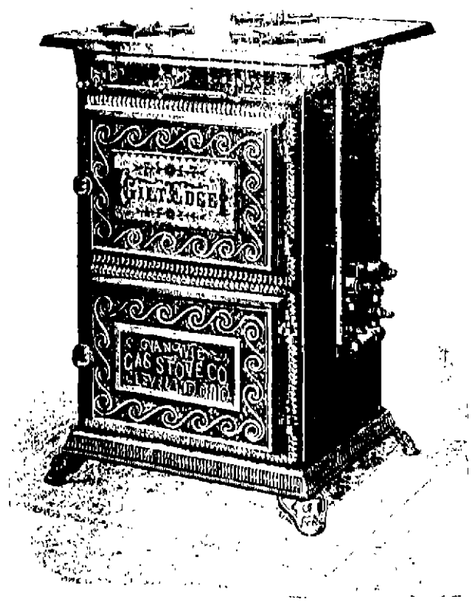
THE FUEL OF THE FUTURE.

GAS, $1.50 PER 1,000 FEET.



Gas Stoves for Summer Use

Are rapidly displacing Wood, Coal and Gasoline for cooking purposes. No bring tax of coal nor wood, no ashes, no dust; always ready and PERFECTLY SAFE meals can be cooked in shorter time, and with less annoyance from heat, than by any other method. Where used they have given perfect satisfaction; cost no greater than that of an ordinary wood stove. Ladies who have used them declare that they are indispensable, especially in Summer, and they COULD NOT KEEP HOUSE WITHOUT ONE.

The Gas Company proposes to make a

NET PRICE OF $1.50 PER THOUSAND FEET,

From May 1 to Oct. 1, to ALL PERSONS USING FOR COOKING PURPOSES.

Read the following opinions from well-known ladies who have used Gas Stoves in Decatur:

R. J. STRATTON,
Supt. of Decatur Gaslight and Coke Co.

R. J. STRATTON, Sup't. *Dear Sir:* I am using a No. 7 Gas Range, and it is with pleasure that I bear witness to its many good qualities. For utility, cleanliness, comfort and economy, it is all I could desire; anything can be cooked on it that can be cooked on any stove, with, in my opinion, less expense, and certainly with less trouble and more comfort. I cheerfully recommend it.

Yours Truly, MRS. HENRY ELWOOD.

MR. R. J. STRATTON, Supt.—*Dear Sir:* I want to say to you that the gas stove you furnished to me last Summer is much more satisfactory than I had hoped for. I can do every kind of cooking with it, and the regularity of the heat gives better results than any other stove. I should not desire to keep house without it.

MRS. FRANK H. HALL.

R. J. STRATTON, Supt.—*Dear Sir:* I have in use one of your Gas Cooking Ranges and as a matter of convenience and comfort it is unsurpassed, and is all you claim for it—generating about the same as oil or coal.

Yours Respectfully, MRS. WM. PLUCK.

THURSDAY EVE., MAY 9, 1889.

THE appointment of Hon Theodore Roosevelt for civil service commissioner will strike the people as one an inently fit to be made. Mr Roosevelt is one of the curiosities of modern politics Educated and refined in the very best sense of the word he is a genuine reformer, and he is a reformer for reform's sake and as a matter of principle Rich in the world's goods and with every incentive to ease and quiet he works for the love of it and without caring a penny for the ordinary pecuniary rewards Big salaries or opportunities for making large sums of money have no charms for him, for he is a stranger to the desire for money, having always had it in abundance Fop ish in appearance he is apt to mislead the stranger with the idea that he is a dude, but he is the farthest removed no anything of the kind He is equally at home in the drawing rooms of New Style Paris, in the halls of legislation and the exciting scenes of a national convention and when he plays the cow boy on his ranch in Montana he is no far from a "tenderfoot" as when he takes up the pen to paint a glowing language the glories of a sunset in the Rockies or the accidents in a magazine article the interest of a fight with the hungry coyotes of the plains Mr Roosevelt, in short is the very best product of an American type that is something rarer but more the best American as a well educated man who loves politics because of its opportunities for good and not because there's money in it He is a civil servant reformer who has not a trace of the mugwump about him He is a Republican because he best serves it and his appointment could not have been improved upon.

THERE was a time when John M Palmer had about as many and bitter enemies among the Democrats of Illinois as any man in the state There was nothing too mean for them to say about him, and not a trick of anything too mean for them to do but show their contempt, even to insults and outrages upon his family while he was doing his duty as an American citizen in the field Time not necessary now to discuss the reasons for Gen Palmer's change of base politically, but we modestly refer to it to illustrate how much any change in their opinions of a public man, provided he gets down low enough in the dirt of political degradation and Lilliputs take the hands of those who spend half a lifetime in trying to vilify and disgrace him and his family, Democrats now flock about him as though he were apotheosized in his person, and hang upon his words as though they were inspired They even confess that he was right in war and that they therefore lied when they tried to belittle and stultify even his legal ability But while this is true, and illustrates the mutability of average humanity, the facts also show that there are some folks and especially some Democrats who are not open to the charge of vacillation whose political opinions are unchangeable as the laws of the Medes and Persians Since Gen Palmer cut to Don Donas at he has never tired of boasting how much his party was to carry the State of Illinois He was on more than one occasion given the caucus nomination of his party for United States Senator, and always came out at the little end of the horn on the most memorable occasion failing to receive as many votes as the man whom he loves with all the intensity bestowed by Satan upon holy water Bill Morrison He was even the nomination for governor last year and did not come as near to victory as did the obscure Lew Steward several years before. There have always been enough Democrats who refused to vote for Palmer to everlastingly defeat his aspirations men who could not forget that there had been a time when Palmer made war upon their brethren in the South when he ordered the Ohio river forces to carry "suggestions" to men who they wanted to travel beyond the reach of their Kentucky masters Indeed there are enough such Democrats in Illinois to prevent Gen Palmer from getting to be a United States Senator, no matter if the skies should go Democratic, of which calamity we have never considerable fear.

The Question of Assessing Customs Duty on Canadian Railway Cars.

Apportionment of the $400,000 Among the National Guards of the Various States.

Dispute Over the Patronage of the Census Bureau—Town Sites in Oklahoma, Etc, Etc

The Question of Assessing Duty on Canadian Railway Cars

WASHINGTON, May 9—Secretary Windom and Assistant Secretary Tichenor heard arguments yesterday in favor of the continuance of the custom of non-assessment of duty on railway cars coming from Canada to the United States The Canadian and United States roads were represented by Digby Bell, ex collector at Detroit, Benjamin Pingler, ex-collector at Suspension Bridge; Mr Russell, attorney for the Canadian Southern Pacific Railroad Company, W R Bates, formerly special agent for the Treasury Department and ex-Representative Spalding, of Michigan

Several months ago the present collector of customs at Port Huron suspended the rule relating to the non-assessment of Canadian railroad cars, which had been in force for twenty years and issued an order making them dutiable The Treasury Department confirmed the order, but afterward suspended it until the representatives of the different roads could be heard The attorneys for the Canadian companies protested that the rule had been too long in operation to be disturbed

Apportionment of Funds Among the National Guards

ACRES OF FLAME.

Moroland, Ill., Visited by a Destructive Conflagration.

Twenty-Five Acres Burned Over and Seventy-five Families Rendered Homeless

CHICAGO, May 9 Twenty-five acres of ground closely built up with small dwelling-houses were swept by fire in the suburban village of Moreland last evening, and seventy families are rendered homeless The fire started in the Presbyterian Church, a medium-sized frame structure, at four o'clock and caught by a high wind prevailing at the time, burned furiously The flames soon spread to surrounding dwellings, one after another and before they could be checked a terrible conflagration was spreading terror on all sides The lack of water supply, aided by the heavy gale placed the fire beyond the control of firemen, police and citizens, who made every effort to check its course A switch engine on which was stored a quantity of gasoline proved a gigantic tinder box when in burning scattered fire in all directions

The fire burned itself out by seven o'clock when it was found that every dwelling in a large number of small stores and the village hall had been entirely consumed

A number of dwellings at a distance from the main body of the conflagration caught fire from flying sparks and were destroyed also

The former occupants of the burned-over district are mostly families in moderate circumstances a majority of whom have lost every thing they possessed. The people in the vicinity was dotted over last night with the camp-fires of the sufferers Only a few of those are saved a portion of their effects standing guard over the remnants while others slept on the bare ground The loss can not be estimated at present, but will reach a large sum in the aggregate It is believed that the fire originated from stumps thrown into the pews of the church by some boy who gained admittance through an open window

INTERSTATE LAW

Yesterday's Hearing Before the United States Senate Committee in New York City

NEW YORK, May 9 The Inter-State Commerce commission today continued the investigation in regard to the relation of Canadian to American railroads Charles Francis Adams president of the Union Pacific road gave a brief description of the Union Pacific system and its branch roads He stated that owing to the manner in which the Inter State law had been interpreted and disputed, it is impossible to give any opinion as to whether or not it is benefit or not In connection with other railroad presidents he by questions to see what would be the effect if the law is strictly carried out In some respects it is a good law, in other ways it is crude Any railroad which has enforced the law has lost considerable business, but it would be different if all the roads honestly tried to observe the conditions of the law In regard to opposition from roads connected with steamship lines on the Pacific coast Mr Adams said "The Northern Pacific Southern Pacific and Canadian Pacific, all have steamship connections Time will settle the commercial problem on the Pacific coast the same as it is doing on the Atlantic coast San Francisco is the New York of the Pacific coast and I don't believe the ships many of San Francisco can be sunk in any more than that of New York"

Mr Adams objected to governmental interference in the affairs of railroads and to a number of questions returned The members of the committee as to the railroads of the Union Pacific from Boston to San Francisco, explained that he was unfamiliar with many of the details connected with the traffic of the road

By Senator Gorman It has been suggested that by joint legislation both the Canadian and American roads be put under the same conditions, and then pooling be legalized What is your opinion on that?

Mr Adams I am heartily in favor of it I am no friend of pools I don't believe in them but we of the country want a steady and known rate

Mr Thomas Lyman Greene, a railroad expert, was the next witness Mr Greene's opinion was that the shippers of the country want a fixed rate, with the privilege of knowing when any change is to be made The Inter State Commission should have power to fix the rates, and represent the public in the transaction

THE PLOW OF DEATH.

It Runs a Deep Furrow at a Michigan Central Crossing.

Six Woman Killed and Many Injured in a Collision with a Street Car

KALAMAZOO, Mich, May 9—Six women were killed and five injured in a collision which occurred between a street car and a switch engine on the Michigan Central tracks yesterday evening The switch engine was on its way to aid a freight train at Ostrich, and had orders to make extra speed At the same time a street car on the West Main-street line was nearing the track, and the driver, not hearing the warning whistle or seeing the gates lowered, supposed that all was safe, and proceeded as usual While the car was crossing the tracks the engine struck it squarely, and carried it several blocks before stopping At the time there was a dozen persons in the car. Of these five were instantly killed They were

Miss Gertie Tillotson, about sixteen years of age

Mrs M E Wattles, wife of the former Lake Shore superintendent at this place

Mrs George Smiley, wife of a prominent citizen

Mrs Alexander Haddock, wife of the professor of mathematics in the Kalamazoo Baptist College.

Mrs Van Anwerp

Miss Middleton, whose limbs were broken, died shortly after the accident.

The injured are Mrs S A. Gibson, wife of the owner of the Kalamazoo Paper-mill, and Mrs. John Barnes Several others had slight bruises. L C Lull escaped without injury, as did the driver and a boy who was on the platform

The driver claims to have seen or heard nothing of the engine until it was upon the car and too late to act Those who saw the accident state that the speed of the engine was at least twenty-five miles an hour—a rate not allowed inside the city limits It is not definitely known where the blame lies The gate-keeper states he is not required to be at his post from six o'clock until 6 45 p. m., as no trains run then

Great excitement prevails in the city, and thousands of people have visited the scene of the accident

THE Bloomington canning factory men have made arrangements for the planting of 250 acres of corn and the same amount of tomatoes. Farmers were planting this week and the work will be resumed next week. Last year the factory put up 300,000 cans of tomatoes and 700,000 of corn. This season will pack the same amount of tomatoes and only half as much corn. Decatur ought to have a corn canning factory.

THE correct way is to buy goods from the manufacturer when possible. The Elkhart Carriage and Harness Manufacturing Co. of Elkhart, Indiana, have no agents. They make first-class goods, ship anywhere, privilege to examine. See advertisement.

FOUND DEAD IN BED.

Coroner Bendure Goes to Mt. Zion to Hold an Inquest

This *morning* Supervisor Smith arrived from Mt. Zion to convey the intelligence of the finding of a dead young woman in her room at the Hockaday House in Mt. Zion when the family arose to prepare breakfast. The deceased was Miss Mary Clark, a girl of 19, who had been employed as a domestic in the hotel. She seemed in her usual state of health last night when she retired, but when discovered by Mrs. R. L. Hockaday, the landlady, the body was cold. The body was found face downward, with her head buried in the pillow and both hands under the breast. There was no sign of a struggle and no marks of violence. Dr. May was summoned. He gave it as his opinion that the girl had died some hours previously.

It is learned that Miss Clark was subject to epileptic fits. She was a charge at the Macon county poor house four years ago, coming there from Missouri. Since 1885 she has been a servant in different families in the country, and has frequently been prostrated by the fits which came upon her. She probably died in a fit.

Supervisor Smith notified Coroner Bendure of the death and that officer went to Mt. Zion to hold the inquest.

The verdict of the jury was that Miss Clark while having an epileptic fit during the night came to her death by suffocation. The body was buried at Mt. Zion this afternoon.

THE business meeting of the Congregational church was held last night, but there was no action taken on the question of selecting a lot on which to build the proposed new church. That question will be settled at a later meeting. The net proceeds of the "Deestrict Skewl" entertainment are close to $350.

PERSONAL MENTION.

Rev. James Miller delivered his lecture at Urbana on Tuesday, and returned home yesterday.

Tom Lord, the street car driver, who was assaulted in the dark, thinks he will be able to return to work on Monday.

Moses Stafford left to-day for Minneapolis, Minn. Thence he will go into Dakota, and be absent several weeks.

Miss Jeannette Rogers and Mrs. F. M. Young are in Bloomington, attending the Art Union meeting.

Miss Jessie Steele gave a vocal solo at the Universalist sociable last night. It was rapturously applauded.

Charles Brady and Miss Allie Boar, both of Harristown, were granted a marriage license to-day.

Mrs. G. D. Haworth, Mrs. Alice Evans and Miss Alice Tyler are at St. Louis attending a meeting of public library directors and managers.

Miss Jessie Palmer, daughter of Gen. J. M. Palmer, accompanied her father to this city last night, and left with him to-day for Sullivan.

Mr. and Mrs. W. E. Haworth departed yesterday for Tacoma, Washington Territory, where they will reside permanently. Mr. Haworth has invested largely in Tacoma real estate.

Pat Gilmore, Madame Blanche Stone Barton, Miss Helen Dudley Campbell, M. W. Whitney and wife, and Eugene de Danckwardt, of the Gilmore Concert Company, registered at the St. Nicholas Hotel.

Invitations have been received by Decatur friends announcing the marriage of Mr. Arthur W. Hendricks, editor of the *Niantic Observer*, and Miss Araminta B. Kizer, only daughter of Mrs. S. E. Kizer, which will be celebrated at the home of the bride's mother at Niantic, on Wednesday evening, May 15, at 7:30 o'clock. Editor Hendricks is a son of Mr. and Mrs. J. C. Hendricks, of Decatur.

I. J. Halstead, who has been residing at Gainesville, Florida, since he left Decatur six years ago, is in the city on a visit to old friends who greet him warmly. Mr. Halstead was a railway mail clerk for nine years before going south. He may remain in the north. At present he is visiting his daughter, Mrs. Dr. Pease at Cisco. While south part of the time he was the city editor of the Gainesville *Daily Record.*

Taken Away.

Miss Ella Phillips, an agent of the Educational and Aid Association, was in Decatur yesterday, and while here six of the homeless children at the Macon county poor farm, all under six years of age, were placed in her charge, to be placed in the association orphan home at Aurora, Ill. The Decatur officer of the association is Mr. James Millikin. Through him and Overseer Holman the custody of the innocent little children, some of whom were born at the poor farm, were placed in charge of Miss Phillips. The children will be cared for and educated until they are placed in good families.

Home from the West.

Cashier B. O. McReynolds, of the Decatur National Bank, arrived home yesterday after an absence of a month in the far west in company with J. F. Roach. At Spokane Falls he saw I. S. Kaufman, Dr. Allison, Smith Crowder, Isaac Cornthwaite, and George Dodson, all of whom are prosperous. Lately Mr. Kaufman has erected the Granite Block at the Falls, five stories high, elevator run by electricity. He also saw Dr. Blalock at Walla Walla, Mrs. Burnham and Miss Davidson, at Portland, Hon. L. L. Haworth, and son, Will, at Tacoma, and James Bristow at Los Angeles. He believes that Tacoma and Seattle will grow to be larger cities than Spokane Falls. On the way home he parted company with Mr. Roach who went to Wichita and will make a journey through the Oklahoma region. Mr. McReynolds returns with finely executed maps of Spokane Falls and views of public buildings. He enjoyed the trip immensely but did not make any investments.

The Great Defeated.

Gen. John M. Palmer, of Springfield, was at the St. Nicholas hotel last evening on his way to Sullivan, where he has been called on legal business. The great defeated was surrounded by a number of Decatur Democrats who seemed tickled at the privilege of sitting at his feet and listening to his chatter about Illinois politics. The General can sympathize with the Greatest Defeated, and therefore he predicts that Cleveland will be the next Democratic candidate for president, while the General himself says he would not refuse an election to the United States Senate in 1891. If Gen. Palmer is the least bit vain, his vanity must have been more than satisfied last night by the attention he received from the local Democracy. Of course he will send back for all the spare copies of the Decatur morning papers to preserve as mementoes of his May visit to this city.

Gen. Palmer did not leave for Sullivan until 11 a. m. to-day. He has been engaged to assist in the defense of Frank *Wuensor, on trial for the murder of John* Kline, near Hammond, May 17, 1888.

Base Ball Chat.

The Shamrocks will play the Pana club at the park Saturday and Sunday afternoons.

Harry T. Smith, secretary and manager of the Illinois-Indiana League, will visit Terre Haute, Logansport and La fayette to boom the base ball interest before the adjourned meeting to be held at Danville on May 16th.

President Irvine, of Bloomington, is a thoroughbred in base ball interest. He will see that Duett Brown is the manager of the Bloomington club.

Staley won another game yesterday for the Pittsburgs, defeating Chicago 3 to 2. This is the record Staley made as told by the *Tribune*: "Staley pitched a great game for Pittsburg. He struck out Ryan twice, Duffy once, and Farrell three times—securing a total of nine strikeouts in all—while he did not send a man to base on balls, and assisted a pretty double play in the fourth inning."

The Art Union.

The sessions of the Illinois Art Union are now being held in the Unitarian church at Bloomington, there being a large attendance. Decatur is represented by Mrs. G. D. Harwood, Misses Elizbeth Jack and Alice Roberts, Mrs. Hatch, Mrs. B. O. McReynolds, Mrs. J. E. Bering, Mrs. E. A. Gastman, Mrs. G. B. Vosburgh and Miss Belle Ewing. The program for to-day was as follows:

The Electric Age.

Professor Elisha Gray remarks that electrical science has made a greater advance in the last twenty years than in all the 6,000 historic years preceding. More is discovered in one day now than in a thousand years of the middle ages. We find all sorts of work for electricity to do. We make it carry our messages drive our engines, ring our door bell, and scare the burglar; we take it as a medicine, light our gas with it, see by it, hear from it, talk with it, and now we are beginning to teach it to write.

BURIED WITH MASONIC HONORS.

Funeral of the Late Dr. Brown at the Presbyterian Church.

The auditorium of the First Presbyterian church was crowded to the doors yesterday afternoon on the occasion of the funeral of the late Dr. Josiah Brown, a highly esteemed citizen and physician who had resided in our midst for a period of 27 years, and by his genial disposition and upright life had endeared himself to all with whom he came in contact. People from all parts of the city from nearly every walk in life were in attendance to manifest by their presence their respect for the deceased.

At the family residence, 665 Prairie Avenue, from 11 a. m. until 2 p. m., many friends of the family came to look upon the face of the deceased for the last time. This privilege was not granted at the church. Floral tributes of various beautiful designs were left by friends at the residence and nearly all were taken to the church. The members of Macon Lodge No. 8, Masons, of which the Doctor was a member, passed through the parlor in which the heavy casket covered with silk velvet rested upon pedestals, and marched out in front where they drew up in line on each side of the walk. A brief prayer was offered by Rev. W. H. Prestley, when the body was borne to the waiting hearse by the pall-bearers, Dr. Ira N. Barnes, Dr. D. N. Moore, Dr. W. J. Chenoweth, Dr. O. F. Parker, Dr. R. L. Walston and Dr. W. M. Harsha, of the Decatur Medical Society, of which the deceased was an active member in his lifetime. The Masonic fraternity acted as an escort for the cortege to the church.

The services at the church were of a very impressive character. The choir comprised Miss Anna Berry, Mrs. O. F. Spaulding, Ralph Templeton and C. W. Montgomery, with Mr. Albert Condell as organist. The selections were, "It Is Well," "I Know in Whom I Have Believed," and "The Bright and Sunny Land Some Sweet Day." Rev. Prestley was assisted by the pastors of the Christian and Baptist churches. Rev. G. B. Vosburgh read the 103d Psalm and the first ten verses of the fifth chapter of II Corinthians, and Rev. T. W. Pinkerton offered the closing prayer.

Rev. W. H. Prestley took for his text the 14th verse of the fourth chapter of Colossians, the subject of his discourse being "The Beloved Physician." In the course of his sermon the clergyman stated that no profession stands higher, except one, than the medical. There is none more benevolent and none more self-denying. Again, there is none more blessed with opportunities for doing good. No one can come nearer to the life of Christ than the christian physician. In the *life of our deceased* brother we have the life of one who was devoted to the work of his profession. He leaves us with an unsullied reputation, honest in the feelings and impulses of his heart and enshrined in the hearts of all his patrons. In sympathetic language the pastor spoke of the noble, self-sacrificing life of the deceased, and said the memory of his uniform kindness and his skill would long be remembered in Decatur and throughout the county.

While the organist played "Home Sweet Home," the family and friends left the church and formed the long cortege which moved slowly to the family lot in Greenwood cemetery where the body was laid at rest. The burial was conducted with the beautiful ceremonies of the Masonic order, Macon Lodge No. 8 directing the service. The choir sang "Rest, Spirit Free," and "Solemn Strikes the Funeral Chime." At the close Miss Berry chanted the Lord's Prayer and Rev. Prestley offered a prayer.

Death of a Former Citizen.

Mr. J. M. Dawson returned yesterday from Monmouth, Ill., where on Saturday last John Moreland, a former resident of Decatur, died at the advanced age of 81 years. He was buried on Sunday at Monmouth. Mr. Moreland was a well known citizen of Decatur previous to about 1876, when he left for Monmouth. During his long sojourn here he was known as a hardworking, genial man of more than average physical development, with a lion voice. During the war times he was useful in crying "dispatches" to collect crowds on the streets. He also officiated at times as crier of the court, *as an auctioneer and as a policeman.* He was employed at the old agricultural works several years.

THE graduates of the Decatur High School at the commencement exercises on June 7th will be Fannie Lacher, Emma Condell, Alice Judson, Ada Pritchett, Millie Batchelder, Beatrice Bowman, Annie Haydon, Clara Hoffman, Grace Penwell, Bessie Colladay, Desdemona Millikin, May Murphy, Clara Bothel, Eugenia Harris, Neta Clark, Lizzie Sherrick, Mabel Durfee, George Lytle, Harley Armstrong, Christy Gannon, Harry Haines, Wesley Shelly, Thad Schroeder, Charles Wood, Frank Johnson, Kilburn *H. Roby, Wilbur Dawson, Harry Metz,* Will Freeman and Julius T. Westermann. Dr. Edwards, state superintendent of public instruction, will deliver the address on graduation day.

Fine Amusements Next Week.

Three excellent attractions are announced for next week at the opera house. In fact they are among the best of the season.

Monday evening, May 13, the Bennett-Moulton opera company, 48 people and their own orchestra, will appear in the "Black Hussar." Prices only 25, 35 and 50 cents.

Tuesday evening, May 14, one of the most laughable comedies ever presented in this city, Augustin Daly's "A Night Off," will be given, the occasion being the annual benefit of Manager F. W. Haines.

The funniest comedy ever produced in America, "A Night Off," by Augustin Daly, was presented at the Park Theatre last night to a crowded and delighted audience. The company remains the balance of the week, and will surely prove the largest engagement of the season.—*Brooklyn Eagle.*

"A Night Off," is undoubtedly one of the most charming comedies ever presented in Atlanta—or anywhere else for that matter—and as given at De Gives last night, furnished one of the most enjoyable entertainments of the season.—*The Constitution, Atlanta, March 28, 1888.*

Deaths at Sea.

"A great deal has been done," said an old sailor the other day, "to improve the lot of the men before the mast, since first I went to sea as a cabin boy, and whenever a complaint is properly lodged against a cruel officer, I must say it is fairly investigated. Yet for all that, there are plenty of murders committed *today on the high seas* that are never investigated because no complaint is made. Every day one or two vessels come into this port with a shorter crew than they started out with and their captains' reports of 'seaman fell overboard and was lost,' or 'cabin boy killed by falling spar,' or 'mad passer died from heart trouble and was buried at sea,' are accepted as perfectly satisfactory. No investigation is made into the death, unless some one lodges a *formal complaint.*

"It's an easy matter for one man who has a grudge against his mate to shove *the other overboard*, if they are both up in the rigging in a dark and stormy night. The unseen cutting of a rope is often enough to do it. It is easy to drop a block or a marline spike on the head of a man below, that will knock him dazed into the water to drown, or down to the deck to smash his skull. 'Heart trouble' covers a great deal of insufficient nourishment, lack of medicine and overwork. This is not the way things are done on land. You have your *coroners* here to investigate sudden deaths, why should they not look into deaths at sea? Many poor cowards would tell the truth against their officers, if they were thus forced to do so, who would not dare come forward and lodge a complaint they might be unable fully to prove."—New York Tribune.

The Head of the Army.

Gen. Schofield's salary is $13,000. Although he is the *successor of Sheridan*, who followed a line of soldiers in the office who were national heroes, and although he is *rightfully the incumbent* by reason of his services to the country, his career has not been such as to make his name over familiar to people generally. His military life has been long and the duties faithfully performed, but in few events has he been very conspicuous. Gen. Schofield was born on the 29th of September, 1831. He graduated from the United States Military academy in 1853, in the same class with Sheridan, McPherson and Hood. Before the war he left the service to become a professor of natural science in a university, but at the breaking out of hostilities he entered the army as a volunteer. A major's commission was tendered to him at once and on Nov. 21, 1861, he had reached the grade of brigadier general. He served all through the war, notably in the Atlanta campaign, and for a time was secretary of war in Grant's first cabinet. At present his duties are practically nominal, for there are plenty of subordinates to look after details. He has an office in the department building which is principally interesting for the relics which it contains of his service. Sheridan filled up his office in a similar way, and it was a favorite spot for sightseers.—Louisville Courier-Journal.

The Cottonwood Tree.

It was not many years ago that the cottonwood tree was considered useless for the purposes of lumber. Today it is crowding white pine out of the market for certain purposes, and large fortunes are being made all along the Mississippi river out of this wood, which was once despised as much in that field as a garfish always has been among fishermen. In New Orleans white pine is worth $85 a thousand, while yellow cottonwood brings $65. For the ceiling of grain barges it is invaluable, as grain cannot sweat in it. Every cracker box in use in this city today is made of cottonwood, and it cannot be excelled for fruit barrels. I do not know why this is so, but it is a fact, nevertheless. Cottonwood will hold nails and can be used for building, and it is also capable of a fine polish after certain treatment, and it is much prized for interior decorations. There are now men rich because they own tracts covered with cottonwood, who five years ago would have traded an acre of it for a yellow dog.—St. Louis Globe-Democrat.

When We Were Boys.

Speaking of "mibs," who has not indulged in that fascinating game at some stage of *her youthful career*? Every man has had in his time his favorite "shooter" either an agate, an alley, or, perchance, a cornelian—and he has had a bag of marbles. He has been able to make a good ring on soft dirt with the sharp edge of his boot heel, and he has often scooped holes in the ground for "chuley-boley." He has practiced lagging at the ring for his shot, and he never forgot the order of that shot. If he were a smart boy he put the kibosh on his better playmates by calling: "Fen picks an' ten everything all aroun' the ground." *Often* he has recklessly played "chimeys for keeps," and even now he cannot pass a crowd of boys playing marbles without involuntarily pausing to see what the next boy did on his shot. Marbles was and still is a great game, especially when played "for keeps."—Chicago Herald.

Gone to Ruin.

Sherman Island was one of the first islands reclaimed and a few years ago was a perfect garden spot. In 1878 the island, which is of a peaty formation, caught fire and burned for months. The smoke was so dense that vessels found difficulty in navigating both the Sacramento and San Joaquin rivers. It burned out in some places to a depth of fifteen and twenty feet, and the island today is entirely submerged. No one lives upon it at all except a few fishermen, whose floating houses are tied upon what was once a levee. The town of Emmatown is no more. The residences are abandoned, the wharf and warehouses dilapidated and unused, while the water stands up to the windows in the school house. It is a scene of desolation.—Sacramento Record-Union
